

JANUARY 2023 CATALOGUE & NEWSLETTER

Dicentra Spectabilis

A popular old fashioned plant, known as the bleeding heart. Upright mounds of light green foliage and the bright pink heart shaped flowers hang along arching stems. Part shade position protected from hot afternoon sun. 70-90 cm high.
75mm tubes \$2.85

Hydrangea arborescens 'Annabelle'

One of the most popular hydrangeas, growing under a wide range of conditions. It has large flowers on erect stems. It flowers later than 'Grandiflora' often with larger flowers.
50mm tubes \$1.70

Trachelospermum Jasminoides

An evergreen twining climber, masses of highly fragrant, star shaped white flowers all through summer. Great on a trellis or fence, can also be grown as a ground cover or on a bank. Full sun, drought tolerant once established.
50mm tubes \$1.70

Euonymus japonicus 'Green Rocket'

Upright evergreen fast growing Euonymus with glossy green leaves, suitable for low hedging up to 1m. Great as a border hedge, very tough, full sun to part shade, can handle coastal conditions.
50mm tubes \$1.55
